

# Your event. Your people. Your next move.

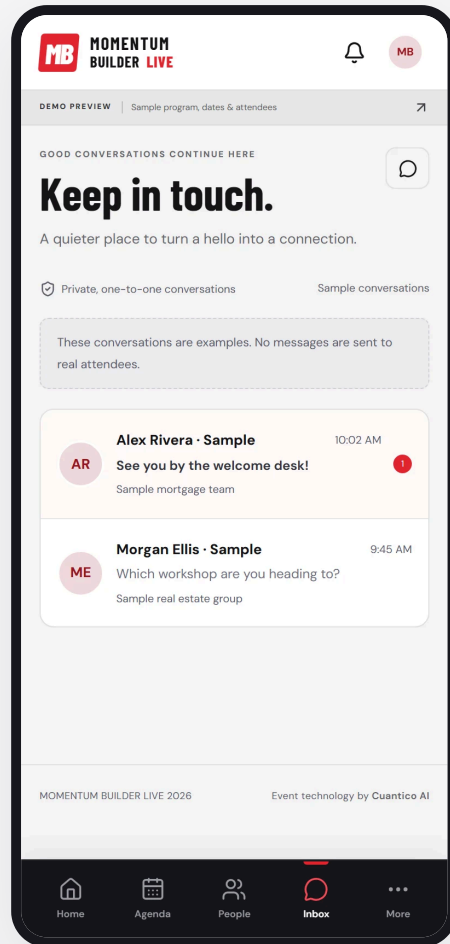

Real screenshots from the implemented app. Event dates, agenda items and attendees shown here are labeled samples.

# One event. Three clear roles.

The app experience changes with the user's assigned permissions.

## Keep in touch

## Admin

Full control of event content, settings, sponsors, users and role assignments.

## Sponsor

Edit assigned sponsor pages: company introduction, logo, booth and call-to-action. Event-wide sponsorship settings stay with the admin.

## Member

Use the event companion, browse the agenda and directory, save sessions and communicate privately.

**Current release:** a reviewable demo. Real accounts and live operations still require backend activation and qualification.

# Sponsor control, where it belongs.

An editor for the pages assigned to the sponsor, with a live attendee-page preview.

The screenshot displays the 'SPONSOR WORKSPACE' interface within the Momentum Builder Live application. The top navigation bar includes the 'MB MOMENTUM BUILDER LIVE' logo and a link to the 'Event guide'. A status message at the top indicates it's a 'DEMO SPONSOR ACCOUNT' and that changes are not published.

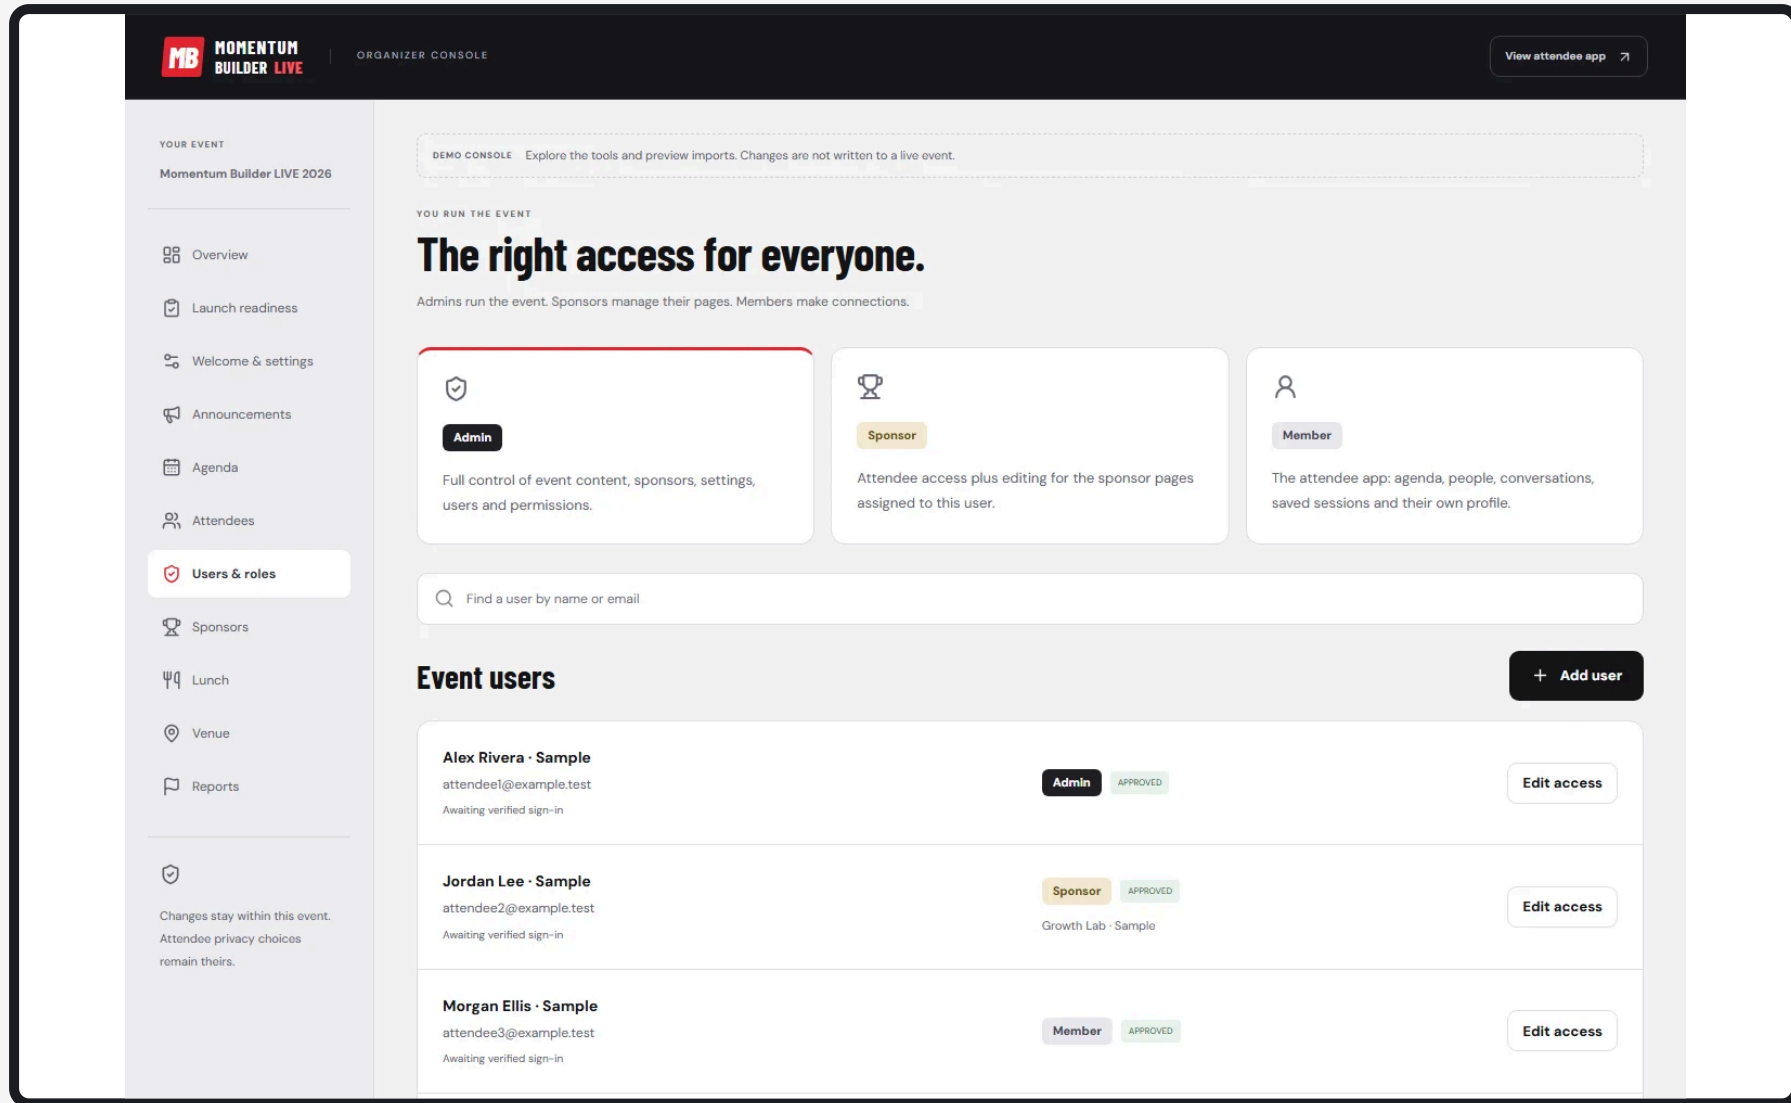

The main section is titled 'Your sponsor pages' and 'SPONSOR PAGE EDITOR'. It features a large heading 'Put your best page forward.' with a subtext: 'Update your introduction, logo and contact link. The preview updates as you type.'

The interface is divided into two main columns. The left column contains the 'Your introduction' section with input fields for 'Sponsor name' (filled with 'Growth Lab · Sample') and 'Booth / location' (filled with 'Sample booth 02'). Below these is a text area for 'About your company' containing sample text, with a character count of '98/3,000 characters'. The right column shows an 'ATTENDEE PAGE PREVIEW' for a 'Gold · Sample' tier. The preview displays a dark header with 'Growth Lab', followed by 'GOLD · SAMPLE SPONSOR', 'Growth Lab · Sample', and 'Sample booth 02'. It also includes a sample description and a button labeled 'Add a link to give attendees a next step.'

At the bottom right, a status message with a checkmark icon states: 'Your page is published. Your event admin controls publication, sponsorship tier and featured placements.'

# Admins decide who can do what.

Add users, grant Admin / Sponsor / Member access and select the sponsor pages each sponsor can edit.

# Make the event ready for the room.

The Launch Center tracks event content and explicit verification of the live experience.
